Amendment 1 of QSP-Vendor Control of Electric Loco Items (Version 7.0)	Effective Date: 20 - 01 -2026	Page **3** of 3

SN	Activity	Description
1.	**Consistency Type Test**	**8.0** RS warranty portal should be monitored annually (In the month of January) by item controlling PUs and based on failures (Collective FRPCPY of all 3 PUs warranty failures) top 20 failure items shall be identified and got approval from PCEE for carrying out consistency test. Consistency type tests for all approved vendors of such identified items whose type test have completed more than 5 years should be carried out by concerned vendor approving agency at the vendor premises or as per the time-period specified in the relevant specification. Apart from above, Consistency type test may be performed by the vendor approving PUs as and when required for product reliability requirements.
